FOUNDED ON PASSION

Appropriately founded in the home of bathing, Roper Rhodes was established in 1979 in the beautiful city of Bath, which we still call our home today. Over the years we have grown and changed along with the city, and our passion for design, ingenuity and creativity has never been stronger. We believe that beautiful bathrooms come from our people, whose inspiration and dedication have made Roper Rhodes what it is today.

THOUGHTFULLY DESIGNED SINCE 1979

For over forty years, we at Roper Rhodes have strived for bathroom perfection. Our dedicated team of designers has grown from just one man to a group of people obsessed with all the little details that go into making your dream bathroom. Although we are constantly creating and innovating, this collection of our most timeless pieces brings together your (and our) favourites that have stood the test of time, just like us.

CUSTOMER SERVICE

Guarantees

Many of our products carry lengthy guarantees. Our furniture, showers, taps and MDF WC seats carry 10 year guarantees whilst our ceramics feature a 20 year guarantee with a 5 year guarantee on cistern fittings and concealed cisterns. Please see individual product sections for details. Guarantees are for domestic use only and are not transferable.

Replacement Parts

We carry extensive stocks of replacement parts and are normally able to dispatch spares within 24 hours of your request. Damaged parts will be replaced with a spare part where possible, complete exchanges will only be made where it is not practical to do so.

Product Specification

Roper Rhodes Ltd reserves the right to amend the specification of its products at any time if an opportunity to improve the product occurs. All dimensions are approximate and are quoted within reasonable tolerances.

The furniture colours shown in this brochure are representative only and can be affected by a multitude of factors such as lighting and surrounding items. If you are unsure we would recommend obtaining a swatch - see below.

Roper Rhodes furniture is designed for use within domestic installations which are adequately ventilated and is not suitable for installation in wet rooms. As with any timber product, bathroom furniture will be adversely affected if it is subjected to excessive moisture. It is strongly recommended that adequate bathroom extractor fans are installed to prevent heavy condensation and all splashes and spillages must be mopped dry as soon as possible. All exposed or cut surfaces must be sealed with a suitable varnish or silicone sealant to prevent blowing. If this is not done, all warranty claims will be void. In particular, silicone sealant must be used around basin and worktop joints and around all edges of bath panels and plinths. All electrical products should be installed by an approved electrician in line with current wiring regulations.

Swatch Sample Service

If you would like to request a finish swatch sample (maximum of 3), please either visit our website roperrhodes.co.uk/swatches or contact a member of our customer service team who will be happy to assist with your request.

Pricing

All prices quoted are inclusive of Value Added Tax, which will be charged at the rate applicable on the date your product is despatched. The prices charged will be those ruling at the date of despatch and Roper Rhodes cannot be held responsible for any errors or omissions in this brochure.
