## Spot Light On Our Influencers

If you are looking for further inspiration why not head to our Instagram page to look at how some of our customers have transformed their bathrooms with our products.

### Shona East

@honeyjoyhome

*"We have just completed a loft extension, creating an additional floor with two bedrooms and a shower room. Although the bathroom space was tiny, we were determined it would feel light and bright, even a little bit luxe. Working with R2 bathrooms was a dream"*

### Libby Faulker

@libsfaulk

*"I always thought you had to have enormous amounts of room to accommodate a double vanity unit, but the R2 options were really practical and allowed us to fit one into a smaller space which has been a dream. I think you and your partner having your own sink is such a luxury I love it!"*

### Lucy Renouf

@lemonsandlucy

*"I love how the furniture unit fits perfectly within the size of the room. We still needed a cabinet that was big enough to store extra toiletries, and this one has exactly that"*

## Basin Units

Bathroom furniture available in four sizes and two styles (Slab & Fluted) with soft close drawers and doors. Our freestanding drawer units also have an internal shelf.

## Basins

Select our fitted ceramic basin or opt for a more hotel style with one of our countertop basins. See pages 76-77.

All our basins have a single tap hole & integrated overflow.

## Handles

Elevate this pared-back basin unit, with a choice of different handle finishes. Available in matt black, brushed brass, chrome or gunmetal.

## Storage

Platform has plenty of accessible storage space. A great example of modernist simplicity.

# Design Challenge

We set three interior designers a challenge: rethink small bathroom design using our Platform furniture - no rules, just fresh ideas, clever layouts, and playful use of colour. The result? A series of inspiring spaces that show just how versatile Platform can be.

## Emma Gurner

emma@em.gurner

*"The flexibility of the Platform range made it perfect for creating a look that felt both bespoke and practical. I also loved having the option to add a side shelving unit for extra storage space."*

Scandi & Caribbean Style

## Sheree Millington

sheree@chez.shez

*"Platform is great because you can really pick and mix between sizes, styles and finishes. I went for a fluted unit to add texture, paired with a classic marble worktop for a timeless feel."*

Vintage Inspired

## Fiona Duke

fiona@fionadukeinteriors

*"The Platform range offers a wonderful amount of storage. I used two vanity units side by side to maximise space in a his-and-hers setup."*

# Countertop Basins & Worktops

A growing trend in highly stylish bathrooms, countertop basins give your bathroom a unique and modern feel. When placed on a worktop, these oval, pill, rectangular or square basins provide a clean uncluttered finish. A distinctive and attractive alternative to conventional bathroom basins. Define the overall style of your unit further by choosing an aspirational solid surface worktop to complement your countertop basin. The natural stone-like beauty of our bianco marble, dark quartz and arctic white creates a striking effect.

made for living

# Small Bathroom Spaces

Re-imagining how fitted furniture can be used to renovate, refresh or revamp your small bathroom.

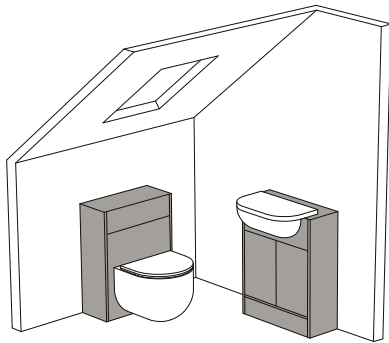

## Get the Look ...

Our fitted furniture is designed to maximise limited space. Unlike freestanding units, fitted furniture is built to follow the dimensions of your bathroom, including corners and alcoves.

Integrated storage keeps toiletries, cleaning supplies, and other items neatly hidden, reducing clutter and creating a clean look. Everything has its place, making it easier to access what you need without rummaging through piles of items.

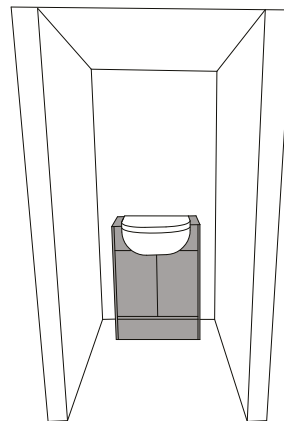

Whether you're working with an ensuite or cloakroom, creating an open, ordered, and stylish bathroom is all in the details - some typically popular layouts are highlighted below.

**Attic**

## Efficient Use Of Space

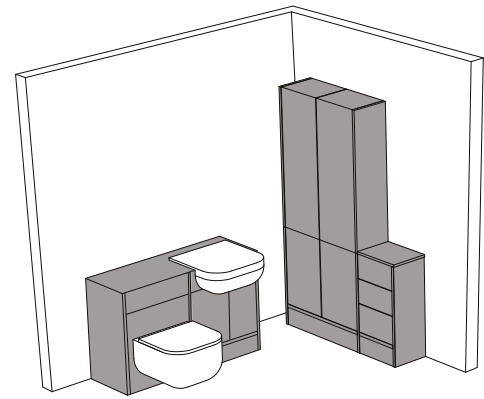

Great for master suites or guest rooms in loft conversions. Adding luxury, functionality, and value to a home, especially in homes with limited space elsewhere.

**Cloakroom**

## Ideal For Small Spaces

Fitted furniture is designed to fit in tight places. Compact & space-saving. Making efficient use of otherwise underutilised space.

**Ensuite**

## Extra Storage

Make use of all your space in an ensuite with varied unit options.

## Above WC Cabinets

Add valuable storage without taking up floorspace with an above-the-toilet cabinet. With three shelves and a slim profile, its ideal for keeping towels and toiletries tidy.

## Open Shelving

Add personality to small spaces by combining closed drawers with open shelving. Perfect for folded towels or styling accents. It adds depth and texture to your furniture run whilst keeping key items within easy touch.

p110

## Slim Floor Cupboards

Make the most of narrow gaps with tall drawer units - a sleek solution for strong bulky items like cleaning products, spare toilet rolls, and oversized bottles.

## Wall Mounted Fitted Furniture

Swap the floorstanding look for a wall-mounted fitted furniture design to create a sleek, floating effect that frees up floor space and makes even the smallest bathrooms feel more open.

# How To Order Your Fitted Furniture

Create a unified look in your bathroom, hiding pipework as well as well as maximizing the space to giving more storage.

Fresh contemporary finishes and a choice of worktop and basin options offer the flexibility to create the perfect solution to suit your style. To design and plan your new bathroom – simply follow our step by step guide and use the following pages for inspiration.

## 01 Door Style & Finish

Choose your door style and finish—either the slab door of muse the shaker style of stow, or hide's handleless doors.

Then choose your desired door finish to front your standard depth or space-saving slim depth units.

## 02

### Handle Options

Choose your handle style from our extensive handle collection, see pages 104-105 for the full offering.

### Worktop Options

Select a worktop from either our laminate or solid surface options. These are designed to be used with our SCT, In-line or Countertop Basins. Alternatively, for a sleek contemporary look, opt for our Isocast worktops with integrated basin, available to fit both standard and slim units.

## 03

## 04 Sanitaryware Options

Choose your R2 sanitaryware. See pages 132-173 for options. For more basin styles see pages 98-99 & 100-101.

## Plinths & Panels

Select a plinth to fit your furniture run and any panels you may need. Filler panels can be cut down and used with a worktop to fill a void in a wall-to-wall installation.

## 05

## 06

### Mirrors & Cabinets

Choose your preferred mirror or cabinet, see pages 242-273. Also don't forget the useful fitted furniture wall cabinets for additional storage.

## 07

### Bath Panels

Select a coordinating bath panel. See pages 128-131.

## 08

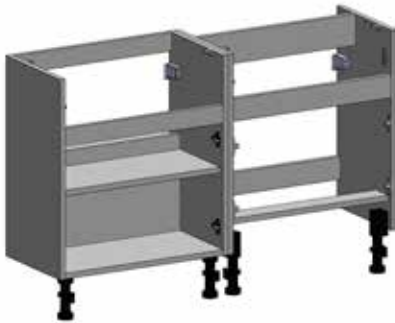

### Tap Options

Complete your bathroom with the addition of an R2 basin mixer. See pages 174-205 for the complete collection.

# Fitted Furniture Step By Step

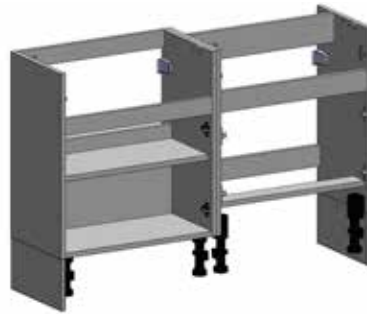

With our versatile fitted furniture and huge choice of additional bathroom products, it is easy to create your unique bathroom. One which will fit not only your personal style, but also the space and more practical needs that you have. Follow these easy 9 steps to help create your perfect bathroom.

Step  
**01**

## Carcass

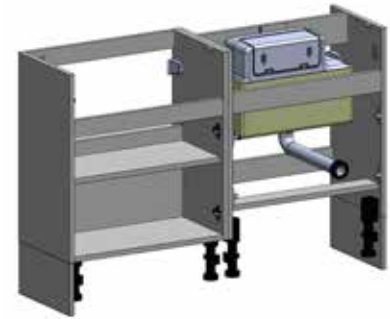

Select your carcass. Carcasses are the building blocks of fitted furniture. Almost every run will start with a semi-countertop (SCT) basin unit, and a back-to-wall unit (BTW) which houses the cistern.

Step  
**02**

## Return plinths

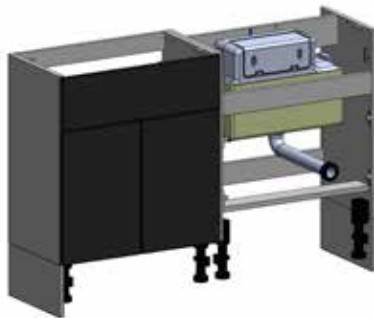

Returns plinths can be used at base of carcasses to finish to the floor if the ends of the run will be exposed.

Step  
**03**

## Cistern & Flush Button

Remember to select a cistern. The cistern is important as it provides flushing water to the pan. The cistern is housed inside the BTW carcass.

Step  
**04**

## Semi-Countertop Unit (SCT) Fascia Packs

These fascia packs comprise x2 doors with soft close hinges and a top fascia on quick release clips.

Step  
**05**

## Back To Wall (BTW) Fascia Packs

These two panels mask the back-to-wall carcass and cistern. These panels should be cut to allow the pan inlet and outlet pipes to pass through and for chosen flush button to be installed.

## Useful Tips

We recommend a 5-10mm overhang of the worktop at each end of the furniture to prevent water dripping onto furniture.

Use silicone sealant to fix the basin in place and seal around the edge of the basin to prevent water ingress.

Step  
**06**

## Plinth

These mask the plumbing gap below the carcasses. They are optional and are not required for a wall mounted run.

Step  
**07**

## Worktop or Integrated Basin

A wide range of worktop options or integrated basins and worktops add to the custom feel of fitted furniture. Slim and standard depths are available in all. Worktops are available in a variety of lengths and patterns. The worktop and SCT top fascia should be cut to suit basin selected.

Step  
**08**

## Basin & WC

We offer a wide range of basins and pans to suit your style and which slot perfectly into our fitted furniture ranges.

Step  
**09**

## Handles

We offer a wide selection of handles to complement all our fitted furniture ranges.

# Countertop Basins & Worktops

Create a hotel look in your home by upgrading to one of our countertop basin options. When placed on a worktop, these oval or rectangular basins provide a clean uncluttered finish. A distinctive and attractive alternative to conventional bathroom basin.

Elevate the overall style of your fitted furniture unit further by choosing an aspirational solid surface natural stone-like worktop, alternatively choose a laminate worktop from our range of go to laminate finishes. See pages 102-103 for more details.

## Sit On Top Countertop Unit End Panels

- Optional panels to clad the sides of the countertop sit on unit
- Slim depth panels only to match countertop sit on unit
- If used above a run of furniture - panels should be used between base units to achieve lineup of panels - see diagram shown on this page

**For  
additional

# Infill / Clad-on End Panels

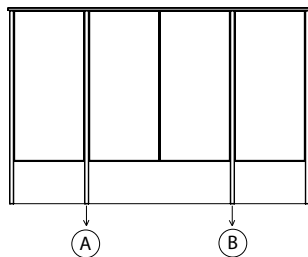

## Universal Filler / Clad-On End Panel

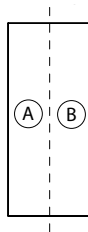

- Use as a filler panel or full height clad-on end panel
- Use to give a framed look to stow, muse and hide furniture
- Cut down for slim depth end panel applications
- Alternatively cut to fit small voids and run a worktop over for a seamless wall to wall look.

When creating a 'framed look', cutting 1 x standard depth end panel in half saves on material and on overall cost. These 2 half depth panels (A & B) can be installed between units.

Standard depth end panel

## Tall Filler Panel

- Full finished edges
- Can be cut to suit different installations
- Use for colour matched end panels
- When more than one filler panel between units is needed we recommend cutting in half for cost efficiency

# Introducing UltraCore

## UltraStrong

Strong and robust, our baths are built to withstand the demands of everyday life in busy households. The **UltraCore** construction delivers multi-layer reinforced strength for enhanced durability, stability, and long-lasting quality.

## UltraWarm

The multi-layer **UltraCore** design of our baths helps your bath water stay warmer for longer, so you can relax for more time while using less energy and reducing environmental impact.

## UltraProfessional

Backed by a 10-year guarantee, our **UltraCore** bathtubs deliver dependable quality and lasting peace of mind for plumbers, installers, and customers alike.

# **UltraCore Baths**

**10**  
Year  
Guarantee

**UltraCore** brings strength and lasting performance to our bath range. Featuring a 5mm acrylic surface and 18mm encapsulated baseboard for superior support, plus added fibreglass layers for improved heat retention, it's built for every day durability and comfort - backed by a 10-year guarantee for total peace of mind.

## Serenity

Serenity Baths are designed for easy installation and effortless bathroom updates. Available in single and double-ended styles, they offer a generous showering area, giving you the flexibility to enjoy a quick shower or a relaxing bath without compromising on comfort or practicality.

## Sky

Sky Baths combine modern style with everyday practicality, featuring soft rounded contours and a space-efficient design that fits comfortably into most bathrooms. Available in single and double-ended styles, they offer the choice of a refreshing shower or a relaxing soak, delivering comfort and versatility without compromise.

# Close Coupled Cistern Flushing Solutions

Cistern Fittings & WC seats

## Close Coupled Sensor Flush Kit

With a simple wave of the hand, hygienic, contactless flushing is now here for close coupled WCs. Two sizes are available depending on the size of the flush button hole in the cistern lid.

The button kits have also been designed to retro-fit to existing WCs which have paddle operated flush valves. For cisterns which have pneumatic or cable operated flush valves, or where the button screws in directly to the flush valve, then the flush valve will also need to be swapped to our TR9033 valve which has a 50.8mm base.

The following systems require flush button kit TR9031.

# Stealth Mirrors

Discover invisible lighting hidden behind Stealth's diffuser technology. On our black finished option, when the product is off, the mirror appears to have a solid black frame but once turned on, the functional, inward facing lighting illuminates your face. Alternatively, our brushed brass Stealth mirrors offer a white diffuser which provides bright lighting in a contemporary frame which pairs perfectly with our brassware. A heated demister pad is also included on all models.

# Quality & Service

As one of the UK's largest suppliers of bathroom products, we set very high standards in design, manufacture and service. We also invest heavily in product improvement and innovation to ensure complete customer satisfaction.

Damaged parts will be replaced with a spare part where possible, complete exchanges will only be made where it is not practical to do so.

We reserve the right to amend specifications at any time if an opportunity to further improve the product occurs. All dimensions quoted are within reasonable tolerances.

R2 furniture is designed for use within domestic installations which are adequately ventilated, and is not suitable for installations in wet rooms. As with any timber product, bathroom furniture will be adversely affected if it is subjected to excessive moisture. It is strongly recommended that adequate bathroom extractor fans are installed to prevent heavy condensation and all splashes and spillages must be mopped dry as soon as possible. All exposed or cut surfaces must be sealed with a suitable varnish or silicone sealant to prevent blowing. If this is not done, all warranty claims will be void. In particular, silicone sealant must be used around basin and worktop joints and around all edges of bath panels and plinths. All electrical products should be installed by an approved electrician in line with current wiring regulations.

Products with a brass finish may not match exactly due to variations in the brass alloy composition, differences in finishing techniques, natural aging processes causing patina and the lighting they are compared in. Imagery shown in this brochure are representative only.

All roomsets have been photographed to provide an artistic impression only.
